

Author index of Journal of Ophthalmology issues in 2020

Clinical Ophthalmology

- Bakhritdinova FA, Mirrakhimova SA, Narzikulova KI, Safarov ZhO, Oripov OI.** Optimizing the treatment for dry eye syndrome in patients with allergic conjunctivitis. *J.ophthalmol.(Ukraine).2020;2:30-35.*
- Bezditko PA, Gulida AO.** Morphological features of the lamina cribrosa in patients with various degrees of myopia. *J.ophthalmol.(Ukraine).2020;1:32-34.*
- Bezkorovayna IM, Jouini Dhia Eddine, Bezega NM.** Pseudoexfoliative glaucoma: clinical sign. *J.ophthalmol.(Ukraine).2017;1:8-12.*
- Bilalov EN, Yusupov AF, Nozimov AE, Oripov OI.** Influence of persistently recurring pterygium on the optical interface of the cornea. *J.ophthalmol.(Ukraine).2020;2:12-16.*
- Boichuk IM, Badri Wael.** Brain potential response to activation procedures in children with refractive amblyopia. *J.ophthalmol.(Ukraine).2020;4:33-37.*
- Bondarchuk OD, Kishchuk VV, Melnykov OF, Tymchenko MD, Didyk ND.** BLate immunocorrection after frontal orbital trauma surgery that involved the use of biocomposite. *J.ophthalmol.(Ukraine).2020;2:56-59.*
- Buldygina YuV, Terekhova GM, Shelkovoy IeA, Fed'ko TV.** Orbital US-based characteristics in Graves' disease-associated autoimmune ophthalmopathy. *J.ophthalmol.(Ukraine).2020;4:8-13.*
- Dimitrova-Radojichikj Daniela, Tasevska Daniela.** Causes of visual impairment: a retrospective study in Macedonian children. *J.ophthalmol.(Ukraine).2020;3:29-30.*
- Dukhayer Shakir, Bushuieva NM, Slobodanyk SB.** Pupil response to accommodation and convergence in children and adolescents with accommodative disorders. *J.ophthalmol.(Ukraine).2017;1:21-8.*
- Erdinç Bozkurt, Ersin Muhafız, Hayrunisa Bekis Bozkurt, Serif Nizamoglu.** A New Parameter in The Etiology of Hyperopic Anisometropic Amblyopia: Corneal Densitometry. *J.ophthalmol.(Ukraine).2020;4:28-32.*
- Igorova KS, Biloshytskyi VV, Znamenska MA, Guk MO, Mumliev AO, Tsiurupa DM.** OCT-measured morphological and structural parameters of the retinal ganglion cell complex in compressive optic neuropathy. *J.ophthalmol.(Ukraine).2017;1:51-5.*
- Igorova KS, Skobska OIe, Zhdanova VM, Guk MO.** Assessing quality of life in patients with ocular disturbances who underwent surgery for non-functioning pituitary adenoma. *J.ophthalmol.(Ukraine).2020;3:37-41.*
- Igorova KS, Zadoiany LV, Guk MO, Chukov AA, Ukrainets OV, Danevych LO, Mumliev AO.** Clinical course of compressive optic neuropathy in skull-base tumors. *J.ophthalmol.(Ukraine).2020;4:23-27.*
- Igorova KS, Znamenska MA, Guk MO, Mumliev AO.** Early signs of primary compressive optic atrophy evidenced by OCT in patients with basal brain tumors. *J.ophthalmol.(Ukraine).2020;1:35-39.*
- Ivanova OM, Drozhzhyna GI, Troichenko LF, Vit VV, Abramova AB, Lotosh TD.** Efficacy of topical N-acetylcysteine as a part of multi-component treatment for severe dry eye syndrome. *J.ophthalmol.(Ukraine).2020;3:3-8.*
- Katsan SV, Adakhovska AO, Budivska ES.** Intraventricular hemorrhage as a risk factor for retinopathy of prematurity. *J.ophthalmol.(Ukraine).2020;4:3-7.*
- Katsan SV, Terletska OIu, Adakhovska AO.** Visual evoked potentials in 5 to 8 year-old children with retinopathy of prematurity. *J.ophthalmol.(Ukraine).2020;3:9-15.*
- Khramenko NI, Gaidamaka TB, Drozhzhyna GI, Velychko LN.** Levels of pro-inflammatory (TNF- α and IL-6) and anti-inflammatory (IL-10 and IL-4) interleukins in ocular herpes patients with frequent and infrequent recurrences. *J.ophthalmol.(Ukraine).2017;1:13-20.*
- Khramenko N.I., Gaidamaka T.B., Drozhzhyna G.I., Velychko L.N., Bogdanova A.V.** ICAM-1 expression on blood lymphocytes in patients with stromal herpes keratitis at different periods of disease. *J.ophthalmol.(Ukraine).2020;3:23-28.*
- Khramenko NI, Folia IuP, Gaydamaka TB, Drozhzhyna GI.** Types of character accentuation in patients with recurrent herpetic keratitis. *J.ophthalmol.(Ukraine).2020;1:14-21.*
- Khramenko NI, Konovalova NV.** Findings of ocular and brain hemodynamics in patients with anterior uveitis complicated by macular edema. *J.ophthalmol.(Ukraine).2020;4:14-22.*
- Kogan MB.** Visualization of anterior eye structures by near-infrared transillumination in patients with contusions of the globe. *J.ophthalmol.(Ukraine).2020;2:45-49.*
- Kozub KE, Shelepin IuE, Chomskii AN, Sharybin EA, Shabanova EA.** A structural and functional study of the retina in patients with schizophrenia. *J.ophthalmol.(Ukraine).2020;4:38-44.*
- Kogan MB, Zadorozhnyy OS, Petretska OS, Krasnovid TA, KorolAR.** Comparing detection rates of near-infrared transpalpebral transillumination, ultrasonography and radiography for foreign bodies in the anterior segment of the eye. *J.ophthalmol.(Ukraine).2020;6:19-24.*
- Lifshits LA, Drozhzhyna GI, Kucherenko AM, Ivanovska OV, Gaidamaka TB, Gorodna OV, Sereda KV.** Role of IL-6 -174 G/C, 1082G/A and IL-10 -592C/A in the pathogenesis of keratoconus and development of recurrent erosion in Ukrainian patients with lattice corneal dystrophy. *J.ophthalmol.(Ukraine).2020;2:3-11.*
- Maharramov PM.** Prevalence of non-infectious corneal diseases. *J.ophthalmol.(Ukraine).2017;1:75-8.*
- Novytskyy Iia, Smal RM, Plevachuk OIu, Andriiuk IaV.** Results of retinotomy for retinal detachment with marked proliferative vitreoretinopathy. *J.ophthalmol.(Ukraine).2020;6:3-7.*
- Maletskiy AP, Khomiakova OV.** Efficacy of radiowave surgery in the treatment of patients with iris and ciliary body melanoma. *J.ophthalmol.(Ukraine).2020;3:31-36.*

Mogilevskyy S.Yu., Kovalchuk Kh.V. System analysis of factors in the pathogenesis of drusen formation in AMD. *J.ophthalmol.(Ukraine).*2020;2:50-55.

Muratova TM, Venger LV, Khramtsov DM, Vorokhta IuM, Teliushchenko VD. Neuro-ophthalmological abnormalities in patients with ischemic stroke in the setting of a stroke center of a university clinic. *J.ophthalmol.(Ukraine).*2017;1:56-61.

Natrus LV, Mogilevskyy SYu, Panova TI, Rykov SO, Bykhovets MIu. A novel concept of differences in pathogenetic mechanism of diabetic retinopathy progression between type 2 diabetes mellitus patients differing in the PPAR γ genotype. *J.ophthalmol.(Ukraine).*2017;1:36-42.

Novytskyy Iia, Lopadchak RM, Novytskyy MI. Efficacy of phacoemulsification combined with goniosynechialysis for primary angle closure glaucoma. *J.ophthalmol.(Ukraine).*2017;1:3-7.

Palamar OI, Lukach EV, Maletskiy AP, Poliakova SI, Kravets OV, Serezhko YuO, Okonskyi DI. Clinical, morphological, CT and MRI characteristics of anterior skull base and orbital tumors. *J.ophthalmol.(Ukraine).*2017;1:62-74.

Panchenko IuO, Mogilevskyy SYu, Ziablitsev SV. Predicting post-surgical recurrent diabetic maculopathy in patients with type 2 diabetes mellitus. *J.ophthalmol.(Ukraine).*2020;1:3-9.

Panchenko MV, Nikolaienko MM, Honchar OM, Prykhodko DO, Pereiaslova HS, Sokol OO. Serum TNF- α and IL-1 β levels in patients with RNFL thinning in uveitis complicated by optic nerve inflammation. *J.ophthalmol.(Ukraine).*2020;6:14-8.

Putri Angrainy, Rodiah Rahmawaty Lubis, Taufik Ashar. The effect of tricks intervention 20-20-20 on computer vision syndrome incidence in computer workers. *J.ophthalmol.(Ukraine).*2020;1:22-27.

Sereda KV, Drozhzhina GI, Gaidamaka TB, Ostashevskii VL, Vit VV. Tumor-like corneal limbal lesions. *J.ophthalmol.(Ukraine).*2020;2:17-23.

Shakir Dukhayer, Bushuieva NM, Slobodianyk SB. Pupil response to accommodation and convergence in healthy children and adolescents of various age groups and autonomic nervous system tone. *J.ophthalmol.(Ukraine).*2020;2:36-44.

Slobodianiuk AS, Chepurnyi IV, Efimenko VP, Shuklina IuV, Kopchak AV, Petrenko OV, Iakovenko LM, Rykov SO. Pediatric orbital fractures: clinical and CT features and criteria for selecting a treatment option. *J.ophthalmol.(Ukraine).*2017;1:43-50.

Troichenko LF, Drozhzhyna GI. Accelerated CXL for stage 2 to 3 progressive keratoconus: 24-month outcomes. *J.ophthalmol.(Ukraine).*2020;3:16-22.

Troichenko LF, Sereda KV, Drozhzhyna GI, Ivanova OM, Medvedovska NV. Structural corneal changes identified with the use of confocal microscopy after accelerated CXL for keratoconus. *J.ophthalmol.(Ukraine).*2020;2:24-29.

Veliksar TA, Gaidamaka TB, Drozhzhina GI, Molodaia AL, Ivanova ON, Dolenko LV, Konakh VN.

Comparing the microflora of the conjunctiva and contact lens in therapeutic soft contact lens wearers. *J.ophthalmol.(Ukraine).*2020;6:8-13.

Zadorozhnyy OS, Guzun OV, Kustrin TB, Korol AR, Naumenko VA, Pasyechnikova NV. Ocular heat exchange indices in terminal neovascular glaucoma patients with proliferative diabetic retinopathy. *J.ophthalmol.(Ukraine).*2020;1:10-13.

Zavoloka OV, Bezditko PA. Efficacy of adjunctive autologous serum in the comprehensive treatment of bacterial corneal ulcers in patients with diabetic mellitus. *J.ophthalmol.(Ukraine).*2017;1:29-35.

Zhmuryk DV, Miliienko MV, Volochanska OG. Surgical technique for persistent macular holes with application of the leucocyte and platelet rich plasma obtained with the Ycellbio system. *J.ophthalmol.(Ukraine).*2020;1:28-31.

Experimental Studies

Bobrova NF, Sorochnytska TA, Molachaniuk NI, Bratishko Alu. Ultrastructural changes in the rabbit retina after various one-time doses of intravitreal melphalan. *J.ophthalmol.(Ukraine).*2020;4:50-55.

Dorokhova O, Maltsev E, Zborovska O, Meng Guanjun. Histomorphology of the healthy fellow eye in the rabbit with unilaterally induced non-infectious anterior and intermediate uveitis. *J.ophthalmol.(Ukraine).*2020;4:45-49.

Dorokhova OE, Zborovska OV, Guanjun Meng. Relationship of the ocular surface temperature with the clinical features of induced non-infectious anterior and intermediate uveitis in rabbits. *J.ophthalmol.(Ukraine).*2020;6:38-43.

Dorokhova O, Zborovska O, Meng Guanjun. Changes in temperature of the ocular surface in the projection of the ciliary body in the early stages of induced non-infectious uveitis in rabbits. *J.ophthalmol.(Ukraine).*2020;3:47-52.

Dorokhova O, Zborovska O, Meng Guanjun, Zadorozhnyy O. Ocular surface temperature in the projection of the ciliary body in rabbits. *J.ophthalmol.(Ukraine).*2020;2:65-69.

Galatenko NA, Kuliesh DV, Narazhaiko LF, Grytsenko VP, Zakashun TIu, Maletskyy AP, Bigun NM. Assessing in vitro cytotoxicity and pH of extracts of synthetic polymers made of cross-linked polyurethane composite with immobilized albugin. *J.ophthalmol.(Ukraine).*2020;4:56-61.

Galatenko NA, Rozhnova RA, Kuliesh DV, Visloguzova TV, Maletskyy AP, Bigun NM. Response of soft tissues and abdominal organs of rabbits and rats to implanting albugin-containing cross-linked polyurethane composite. *J.ophthalmol.(Ukraine).*2020;6:30-7.

Molchaniuk NI. Late ultrastructural changes in the rat chorioretinal complex following injection of mixture of 40% ethanol and 100% methanol. *J.ophthalmol.(Ukraine).*2020;6:25-9.

Nazaretian RE, Zadorozhnyy OS, Umanets MM, Naumenko VA, Pasyechnikova NV. Effect of irrigation

solution temperature on the duration of intraocular bleeding during vitrectomy (experimental study). *J. ophthalmol. (Ukraine).*2020;2:60-64.

Sirman YaV, Savytskyi IV. Changes in endothelial nitric oxide synthase activity over time after induction of experimental diabetic retinopathy. *J. ophthalmol. (Ukraine).*2020;6:44-54.

Literature Review

Konovalova NV, Savko VV, Khramenko NI, Guzun OV, Slobodiansky SB, Zhuravok IuA, Savko VV, Jr. Post-streptococcal Uveitis. *J. ophthalmol. (Ukraine).*2020;1:49-53.

Krongauz Mlu, Nasinnyk IO, Pasyechnikova NV. Treatment of rhegmatogenous retinal detachment: from the past to the future. *J. ophthalmol. (Ukraine).*2020;1:40-48.

Lutsenko NS, Rudycheva OA, Isakova OA, Kyrlyova TS. Current view on retinal OCT imaging nomenclature and terminology. *J. ophthalmol. (Ukraine).*2020;4:62-68.

Oripov OI, Bilalov EN, Boymurodov ShA. Current aspects of surgical repair for orbital wall fractures: a literature review. *J. ophthalmol. (Ukraine).*2020;4:77-82.

Serdiuchenko VI. Use of prisms in ophthalmology: a review. Part 1. The use of prisms in strabismus: historical background, methodologies and their outcomes. *J. ophthalmol. (Ukraine).*2020;4:69-76.

Vasyuta VA, Biloshytsky VV, Pichkur LD, Huk AP, Malysheva OYu, Borovyk LR. Neuro-ophthalmological and neuro-surgical aspects of papilledema. *J. ophthalmol. (Ukraine).*2020;6:55-60.

Vitovska OP, Pichkur LD. Prospects of up-to-date antioxidants in the treatment of chronic eye diseases. *J. ophthalmol. (Ukraine).*2020;3:42-46.

Case Reports

Cholak AS, Nasinnyk IO, Kostenko PO, Iakimenko SA, Korol AR. A case of vascularized corneal opacity treated with aflibercept. *J. ophthalmol. (Ukraine).*2020;1:54-56.

Leopoldo Garduño Vieyra, Raúl Rúa Martínez, Raúl Macedo Cué. Strabismic amblyopia regression post refractive surgery. *J. ophthalmol. (Ukraine).*2020;6:70-3.

Maltsev DV, Hurzhii OO. ANA-associated uveitis in the presence of reactivated HHV-7 infection in a patient with MBL deficiency. *J. ophthalmol. (Ukraine).*2020;6:64-9.

Pasyechnikova NV, Fedirko PA, Babenko TF. A case of radiation cataract found 29 years after radiation exposure. *J. ophthalmol. (Ukraine).*2020;6:61-3.

Saadouli D, Ben Mansour K, Farae M, Loukil I, El A Frit MA. Retinal vein occlusion in Crohn's disease. *J. ophthalmol. (Ukraine).*2020;6:74-5.

Innovations

Danyk Y, Zborovska O, Pasyechnikova N. Strategies for the development of cyber-ophthalmology. *J. ophthalmol. (Ukraine).*2017;1:79-85.

Kochina ML, Demin YuA, Yavorsky OV, Kovtun NM, Firsov OG. Clinical decision support system for extraocular muscle pathology. *J. ophthalmol. (Ukraine).*2020;2:70-78.

Kovalchouk AG, Potapenko IV. Assessment of variation in the efficacy of eyeball local vacuum compression with a new suction cup for impedance oculopneumoplethysmography depending on anatomical parameters of the eye. *J. ophthalmol. (Ukraine).*2020;1:57-67.

Malachkova NV, Gabruk IA, Gabruk II, Andrushkova OO. A method of marking the limbus during X-ray localization of IOFB in the presence of apparent chemosis or scleral subconjunctival hemorrhage. *J. ophthalmol. (Ukraine).*2020;3:61-64.

Rodina NV, Biron BV, Ukhanova AI, Semeniuk NS, Kernas AV. Developing the inter-role conflict scale for eye-care workers. *J. ophthalmol. (Ukraine).*2020;2:79-86.

Sakovych VM, Makarenko OV, Kryvoviaz OV, Tomashevska YuO, Koval VM. Mathematical modelling in ranking timolol single active ingredient drugs by the efficacy criterion. *J. ophthalmol. (Ukraine).*2020;4:83-88.

Samchenko IuM, Maletskiy AP, Bigun NM, Dolynskyy GA, Kernosenko LO, Pasmurtseva NO, Poltoratska TP, Mamyshev Ie. Dynamics of depositing and diffusion of drugs (chlorhexidine, 5-fluorouracil and doxorubicin) in hydrogel implants with different hydrogel crosslinking densities. *J. ophthalmol. (Ukraine).*2020;3:53-60.

Organization of Ophthalmic Care

Liseienko OV, Savenkova II, Semeniuk NS, Suslova VO, Pereviazko LP. Time budget allocation by and stress and job satisfaction among eye care workers. *J. ophthalmol. (Ukraine).*2020;6:76-82.

History of Ophthalmology

Bobrova NF, Shevaleva VV. Vladimir E. Shevalev, the disciple Academician V. P. Filatov loved. *J. ophthalmol. (Ukraine).*2017;1:90-6.

Kindiuk BV, Ovcharuk SS, Stechishin AV, Baklan OV. Contribution to ophthalmology and jurisprudence made by the Filatov-Gernet family: formative years. *J. ophthalmol. (Ukraine).*2017;1:86-9.

Jubilee

Commemorating the 80th birthday of Professor Josyp Saldan. *J. ophthalmol. (Ukraine).*2020;1:68.

Obituary

A Tribute to Prof. Ivan M. Logai. *J. ophthalmol. (Ukraine).*2020;2:87-88.

Information

Book Review: Bobrova NF, editor. A monograph of Retinoblastoma. *J. ophthalmol. (Ukraine).*2020;3:65-66.

Pasyechnikova NV, Naumenko VO, Berezovska KO, Volkova YuS, Ivanchukova HV, Myrnenko VV, Anishchenko IuO. Report concerning the All-Ukrainian research/practice conference «Topical Issues of Ophthalmology». *J. ophthalmol. (Ukraine).*2020;6:83-4.

Author index of Journal of Ophthalmology issues in 2019. *J. ophthalmol. (Ukraine).*2020;1:69-71.
